ELEVEN MORE DEATHS

Thirty-Two Additional Cases Are Also Reported.

ARMED VESSELS SENT

Patrol Boats Impressed Into Service and a British Ship Is Not Permitted to Allow a Tug Go After a Barge.

New Orleans, Aug. 3.—Following is yellow fever record up to 6 o'clock Wednesday evening: New cases, 22; total cases, 278; deaths, 11; total deaths, 79; new substitute foci, 4; total substitute foci, 54.

The fever situation showed no material change during the day and the few new foci shows that it is not spreading with the rapidity of former years. Of the deaths four were in the emergency hospital, four in the original districts and three in the charity hospital.

The impending hostilities between the states of Louisiana and Mississippi over the invasion by Governor Vardaman's quarantine mosquito fleet and the armed guards stationed at Pearl river is not improved by the statement given out by Governor Vardaman in Jackson after his return from the coast, where he went to investigate the situation.

Governor Blanchard has ordered Captain Bostick of the naval brigade to impress the fleet of patrol boats of the oyster commission into service, arm them and patrol the waters now in possession of the Mississippi boats. One of these boats has already been dispatched to the Rigolets, the neck of water connecting Lake Pontchartrain with Lake Borgne, and a launch armed with Colts rapid fire guns from the naval brigade armory and manned by officers and crew from the brigade will go the scene.

Both Captain Bostick and General Perillat submitted reports as to the result of their investigations. Both dispatched officers to the scene and they learned enough to confirm the first reports of the armed invasion and the arbitrary action of the Mississippi patrol boats in closing Louisiana waters to Louisiana fishermen. The Rigolets draw bridge, on which the Louisville and Nashville railroad crosses, is five miles from the Mississippi line and distinctly on Louisiana territory and does not even come under that territory now in dispute before the supreme court of the United States. It was found that a man named Blunt, claiming to be in charge of the Mississippi patrol in those waters, had stationed himself on the bridge armed with two shotguns and forbade the bridge-keeper from opening the draw to allow boats to pass out from Lake Pontchartrain into Lake Borgne. Other complaints have also been received in large numbers. A score of fishermen called on the authorities and told how they had been prevented from going into Lake Borgne by the Mississippi boats.

There are eighteen boats now at Ship Island, which were captured by the patrol and towed by the revenue cutter Winona to Ship Island quarantine station. It is claimed that every one of these vessels was taken in Louisiana waters.

Another complication has developed in the same connection. The British ship Brayhead of the Headline, after completing her cargo in New Orleans, stopped at the Mississippi side of Lake Borgne canal to get a deck load of timber, but the Mississippi boats absolutely refused to allow a tug to go to the mouth of Pearl river to get the barge. The Brayhead had to leave without the cargo and the agents say the owners will lay the matter before the British government.

SHREVEPORT SITUATION.

Patient in the Detention Camp In Convalescent Condition.

Shreveport, Aug. 3.—An official report issued by the board of health on the case of yellow fever in the detention camp on the outskirts of the city, states that the patient has a temperature of 99 and a pulse of 88. He is considered convalescent. There are no new cases of fever and no suspicious cases and the local health authorities are confident that the infection will be confined to this sporadic case. The excitement that prevailed Tuesday has subsided, although a number of people left Wednesday for points in the north and east. Only two railroads—the Vicksburg, Shreveport and Pacific and the Cotton Belt—are taking passengers out of the city, and these are going to the mountains of Tennessee and the Carolinas, or to points in Missouri or some more northern state. All trains from the south are stopped at the parish line, twenty miles distant, and are not permitted to come into the parish. A northbound train on the Kansas City Southern was halted at the parish line Wednesday and all passengers were left stranded on two sleepers and two coaches. The engine and mail car were fumigated and allowed to come into the city.

The city board of health has resigned, because of criticisms in permitting the Kansas City Southern to bring the man suffering with fever into the parish. The citizens' committee adopted a resolution last Thursday calling upon the board to order all railroads not to bring

any person to the city without a health certificate. Tracey was brought here Sunday and he had no certificate. It is charged that the president of the board of health failed to issue the order as requested. The board is acting until a new board is appointed.

Four In Mexico.

City of Mexico, Aug. 3.—The superior board of health reports that there are only four cases of yellow fever in the entire republic. These cases are in the city of Vera Cruz, where they are thoroughly isolated.

Mrs. Colquitt Ill.

Austin, Aug. 3.—Railroad Commissioner Colquitt received a telegram announcing the critical illness of Mrs. Colquitt at Pittsburg, Tex. He left immediately for that place. He was forced to cancel an engagement to speak at the old settlers' reunion at Georgetown Aug. 5.

Interests Transferred.

Houston, Aug. 3.—Mrs. Anson Jones and Mrs. C. H. Milby of Houston, president and secretary of the Daughters of the Republic of Texas, have formally transferred to the state all interests of the society in the Alamo. All legal requirements have been satisfied and the mission will be in full possession of the state by Sept. 1.

SEVERAL SPOKE.

Vice President Fairbanks and Other Notables Made Addresses.

Sault Ste. Marie, Aug. 3.—Commemoration exercises in the government park here adjoining the ship canal made up the second day's programme of the semi-centennial celebration of the opening of St. Mary's ship canal, which connects Lake Superior with the lower lakes. The exercises took the form of addresses, the feature of which was the address by Vice President Fairbanks. The park was handsomely decorated and the addresses were made from a stand erected at an advantageous point. Other addresses were made by Congressman Burton of Ohio, Hon. Rodolph Lemieux, solicitor general of the Dominion of Canada, Governor Warner of Michigan and United States Senator Burrows.

TRAIN PLUNGED DOWN.

Lady Seriously Injured and Other Passengers Sustain Bruises.

Johnstown, Pa., Aug. 3.—Baltimore and Ohio passenger train bound for this place from Rockwood was wrecked about 8:30 o'clock Thursday morning at Paint creek bridge, in Somerset county. Train consisted of an engine, baggage car and two passenger coaches. The rails spread and the baggage car and one coach went over the twenty-foot embankment into the creek, which is a shallow stream. The engine and last coach were not dragged down.

A lady passenger was seriously injured and several other persons hurt.

RUN ASHORE.

Nippon So Badly Shelled That This Action Was Necessary.

San Francisco, Aug. 3.—Advices have been received here by the steamer Siberia, just arrived from the orient that the former Toko Kisen Kaisha liner Nippon was so badly damaged by shells of Russian warships during the battle in the Sea of Japan that it was found necessary to run the vessel ashore to save her from being a total loss. She was one of Admiral Togo's scouting vessels and first discovered Admiral Rojestvensky's fleet on the morning of the great naval battle. It was while bearing the news to the Japanese fleet that the well known steamer met disaster. From all accounts the Nippon can be raised, when she will again resume service on her old run.

CARNAHAN NO MORE.

FRIDAY, AUGUST 4.

Don't carry rumors. Carry a can of kerosene or crude oil.

With continued dry weather Bryan will soon be full of the fleecy staple.

Dr. Tabor, state health officer, announces that the Texas border is well guarded.

All Bryan's neighboring towns have joined in the clean-up crusade with vigor and determination.

Roosevelt should tender his good offices for peace to Mississippi and Louisiana, and try to have the trouble settled along with the hostilities between Russia and Japan.

The things the governors of Louisiana and Mississippi are saying to each other just now must astonish the executives of the Carolinas, whose familiar pleasantries are proverbial.

The report of the National Ginners' Association places the average condition of the cotton crop at 72 per cent, and the average reduction in acreage at 17.6. Texas is put down at condition 65 per cent and reduction 18 per cent.

An Austin special says: The Railroad Commission has received the annual report of the Hearne & Brazos Valley Railway Company, which shows that road to be doing splendidly. Its nineteen miles of road earned \$23,419 and \$17,592 was paid for operation, etc, leaving net income from operation of \$5,827, which went to an accumulated surplus, making it amount to \$62,206. The property is not bonded, having been built with its capital stock and earnings. The capital stock is only \$52,870, or only an average of \$2830 per mile.

MOTHER MARY THERESA DEAD.

A Sad Blow to the Ursuline Communities of Bryan and Galveston.

Mother Mary Theresa of Villa Maria Ursuline Academy at Bryan died yesterday morning at 5 o'clock at the Ursuline Convent in Galveston. The sad news was conveyed by telegram to Bryan, and was a great shock to her associates at Villa Maria and to her many friends in Bryan. She went to Galveston about a month ago, and while not well, her condition was not considered serious. She developed appendicitis, however, and was operated upon, and her death followed.

Mother Mary Theresa had been a member of the Ursuline Community eleven years and was 34 years old. She came to Bryan with the establishment of the school here, and was highly accomplished as a teacher and musician. Lovely in character, consecrated and faithful in the fullest measure to every duty and obligation, she was greatly beloved by associates, pupils of the Academy and friends of school here and elsewhere in the state. She will be laid to rest in Galveston.

Attention, Members Friend-in-Need.

Bryan, Texas, August 3, 1905. You are hereby notified of an assessment of One Dollar (\$1.00) on account of the death of Will A. Jolly. This must be paid to Joe B. SING THE SOUTH.

It gives us pleasure to announce for publication this coming autumn, a book of poems by Judd Mortimer Lewis, who has for a number of years contributed a column of poetry and prose under the caption: "Tamparing With Trifles," to the editorial page of The Houston Daily Post. We can say little regarding Mr. Lewis' ability as a poet that the world does not already know; his work has at different times and by widely-scattered publications been compared to and rated as superior to the best efforts of Riley and Eugene Field. Comparisons, however, are odious, and we make no such claims; our only claim is that Lewis is Lewis, and that his work is so distinctive and exquisite as to give him a place by himself. His baby poems have brought him letters of appreciation from lovers of children all over the land; his love lyrics have brought him letters of enthusiastic commendation from delighted lovers, and these exquisite humorous, pathetic and sentimental gems have been reproduced in publications in England, Japan, Mexico, Canada, and the Philippines, while newspapers of the United States may truthfully be said to have the Lewis habit. The title of the volume to be issued the first day of November is, "Sing The South." It will be printed on fine paper, illustrated by Kaiser, and beautifully bound; it will contain one hundred of Mr. Lewis' best poems, including some hitherto unpublished gems in his best vein. In this collection will be found something to suit all ages and conditions and all moods of humanity. The price of Sing The South will be \$1.50 postpaid. The Houston Printing Company.

MR. W. A. JOLLY DEAD.

Mr. W. A. Jolly, after a month's illness, died Wednesday night at 11:45 o'clock at the residence of Mr. I. F. Thompson in the Holligan community. Mr. Jolly was 32 years old and a son of Mr. R. E. Jolly of Callahan county. He was born in Texas and reared in Brazos county. His father and two brothers and one sister, Dave Jolly of this community and Mrs. Edna Cook and Marion Jolly of Callahan county survive him. His wife died about two months ago at Call, Newton county, and they leave three children. Mr. Jolly was a member of the Baptist church and the Friend-In-Need Society, and was buried yesterday afternoon at 5 o'clock at Bethel church.

STATE FAIR OF TEXAS.

Interview With Secretary—\$100,000 Spent in Premiums.

"The twentieth annual entertainment of the State Fair of Texas" said President C. A. Keating, "will begin on Saturday, September 30, and run for sixteen days. Since the the last fair this enterprise has been re-organized with fifteen hundred of the leading citizens of Dallas as stockholders. A handsome concrete-stone auditorium and exposition building has been erected at a cost of \$100,000, upon the site of the hall destroyed by fire in 1902. The old buildings on the grounds have been repaired and repainted, and the park embracing 117 acres, greatly beautified and adorned by a number of classical statues of heroic size, which were part of the decoration of the Belgium building at the St. Louis Fair.

The association is expending \$100,000 in premiums, purses and attractions for the coming fair. Seymour's famous military band of fifty members, will give three concerts daily in the band stand. Hella Temple Band and the Exposition Orchestra are other first-class musical organizations engaged. The Olympia Musical Comedy Company, of seventy-five members, and with orchestra, will give two high class operatic productions every day, put on with gorgeous scenery and costumes. In our continuous free show the leading vaudeville artists in the country will appear in the latest and best specialties. Our Midway will consist of eighteen of the best and cleanest shows to be had for money. A carrousel figure eight, a toboggan and an old mill now being placed on the grounds will be in operation during the fair.

"The indications now are that we shall have between six and seven hundred race horses on the grounds when the fair opens. Our racing program calls for six races a day for thirteen days. The purses offered in this department are \$30,000. The open book system, required by law, is attracting horsemen and bookmakers from all over the country and at the same time appears to be quite satisfactory to the public. It is estimated that the horses which will participate in our races will represent a value of more than a million dollars. Several hundreds of these flyers are now on the grounds and in training for the approaching races.

DANGEROUS GERMS IN SUMMER.

Strengthen the Stomach With Mi-o-na and Keep Well.

A wealthy philanthropist in New York spends thousands of dollars every summer providing milk for the babies, with the result that the mortality is greatly decreased. He appreciates the fact that disease germs are common in the summer and that the stomach must be kept healthy to resist their attacks.

Older people do not live on a milk diet to insure health, but they can so strengthen the stomach and digestive organs by the use of Mi-o-na that they, too, will be free from sickness in the summer season.

Take a Mi-o-na tablet before each meal, and it will soothe and heal any inflammation that may be present in the lining of the stomach give tone and strength to the whole digestive system, and aid you in naturally and easily digesting the food. It is the only remedy that cures indigestion and stomach troubles by strengthening the digestive system. It is guaranteed to make a complete and permanent cure in all diseases of the stomach excepting cancer.

Mi-o-na restores complete health to the whole system and cures headaches, backache, sleeplessness, pains and distress after eating, vertigo, heart burn and the general debility which result from a weak stomach and imperfect digestion.

A guarantee to refund the money if Mi-o-na does not show help, is given with every 50 cent box. Ask E. J. Jenkins to show you the guarantee.

CONCEALMENT CAUSE.

To This Is Attributed Fever Among So Many Italians.

FOOD IS TOO HEAVY.

New Orleans Doctors Will Investigate Tracey Case and Kentwood La., People Say the Malady Has Not Been There.

New Orleans, Aug. 3.—Concealment until their cases are almost hopeless and the utterly inadequate treatment until they fall into the hands of doctors are considered partly responsible for the heavy mortality among the unfortunate Italians who fall victims of attacks of yellow fever. It is said investigations shown heavy food, like macaroni and bananas, have been taken by members of the race after the fever had fastened its clutches on them. That means almost certain death, for in the treatment now prescribed by doctors no solid food of any kind is given during the several days of the patient's illness. Milk is the principal diet, with alkali waters and juice of watermelon to work on the kidneys. To allay nausea doctors prescribe small particles of ice, to be dissolved in the mouth. Many Italians die because they do not get this treatment until too late. Comparatively few outside of the Italians have been attacked and some of these exceptions are already on the street little the worse for their illness.

The situation Thursday continued to be viewed with something like optimism by those immediately in charge of the fight. The public was warned not to be alarmed because the number of cases and deaths were more numerous than they were a week ago, and doctors are saying that for some time probably, even with the most favorable progress, there will be cases and fatalities. But so long as there is no serious infection in the modern section of New Orleans—that is, the large district which lies above Canal street—doctors refuse to believe there is any chance of the disease assuming a general epidemic form.

Excitement in country districts is not allayed, but seems to have grown more acute with the discovery of cases at other points. In this connection doctors here are disposed to question whether all cases that appear can properly be traced to New Orleans. The case of the man Barney Tracey, sick at Shreveport, who said he was in New Orleans, is being inquired into. It is considered remarkable that if he were in New Orleans only a few hours and had become infected here the illness should have developed so long after. In the matter of the Montgomery case, Minette, who said he went from Kentwood, La., to Montgomery, Kentwood people are out in a card denying Minette spent any time there or they have any fever in that town.

A whole trainload of passengers on the Iron Mountain road has been held up in Concordia parish and removed from any habitation. Passengers have been loud in telegraphic protests to the railroad committee, declaring they had neither food nor water and that nothing had been done to relieve them from the hard situation. Efforts have been made to move the train.

Monroe, La., with fever on three sides of her, has put militia and armed citizens on every road leading into her limits. New Iberia, La., has put the curfew law into effect. Columbus, Miss., has decided to guard against infection by the use of rifles. Many smaller towns are passing mosquito ordinances.

Alexandria, in Rapides parish, has completely bottled herself up, but in order to save herself and the parish from starvation she has permitted the running of a train thoroughly fumigated three times a week to bring in provisions and other supplies.

In order to aid those Italians who are still well to escape the infection the authorities are making large distribution of mosquito bars to poor families. It has heretofore been difficult to induce Italians to thrust protect themselves from the insects.

In Mississippi the state board has issued an address to the people recommending all public meetings such as gatherings, lodges, camps, etc., be discontinued for a period of thirty days. Such was the rule in former epidemics, but there has been no move made here to revive restrictions against public gatherings.

Dr. Brunner, municipal health officer of Savannah, Ga., formerly of the marine hospital service, who came here to investigate the situation in order that his board might act intelligently in the matter of quarantine, finished his work here and returned home. Dr. Brunner in an interview said that there is not now any excuse for yellow fever ever spreading in the south. He considered it a grave reflection that it should have been permitted to enter and inexplicable that it should have remained so long undiscovered.

There were early reports Thursday of two deaths at the emergency hospital.

The marine hospital service is gradually bringing about a better understanding with the authorities in the other states to the end of enabling travelers to proceed to the destinations after due detention. Aside from prosecuting vigorous sanitary measures all energy of the commercial public here is being devoted to an effort to educate the panic stricken people of the South that they run absolutely no risk of infection through commercial intercourse with New Orleans. Re-oiling and screening of cisterns went forward with great vigor and enthusiasm Thursday.

BIG BARBECUE AND SHOOT.

A Gala Day at the Central Texas Fair Grounds Yesterday.

The crack shots of Bryan and the Brazos bottom had a day's sport at the fair grounds yesterday that will be remembered by all present. The affair was arranged by Messrs. E. Covey and Seth Mooring and embraced a big barbecue and shoot, both of which were successful in every particular. About seventy-five people were present. The barbecued meats were prepared on the grounds and included choice cuts of beef, pork and mutton, temptingly served with all the necessary condiments and accessories. The new traps supplied by the Cole Hardware Company were used and proved highly satisfactory. There were many events, but chief interest centered in a match of eleven men on each side between Bryan and the Brazos bottom. In 278 shots the Brazos bottom boys shattered ten more rocks than the Bryan crowd. John K. Parker made the best score of the day.

NO FEVER IN TEXAS.

Mayor Harrison in Touch With State Health Officer Tabor.

Mayor R. H. Harrison received a telegram from State Health Officer Tabor this morning saying there was not yet to his knowledge a case of yellow fever in Texas, and that he would notify him should a case develop at any point. He also instructed him to keep a close watch on the Italians escaping from Louisiana. Dr. Tabor evidently thinks there is danger from this source or he would not have so instructed Dr. Harrison, who is county health officer and acting city health officer. Dr. Harrison says he is willing to declare a quarantine and put guards on the trains, if somebody will furnish the money, but that the city has not the money to meet such an expense. Under the circumstances he has not indicated just what he would do, but asked the Pilot to state to the people for him, not to be alarmed at the scary letters and reports in the newspapers, as there was more sensationalism than truth in them. —Pilot.

Dr. Harrison made substantially the same statement to the Eagle yesterday afternoon and added that the sanitary inspection now going on is to be complete and thorough; the regulations will be rigidly enforced and all who refuse or neglect to obey them will be fined.

STATE FAIR OF TEXAS

DALLAS, TEXAS
SEPTEMBER 30--OCTOBER 15, 1905
ANNOUNCEMENT.

The present organization, known as the State Fair of Texas, stands today without a parallel in the history of fairs. It is owned and managed by some fifteen hundred of the most prominent citizens of Dallas, who have donated the money to build a fire-proof auditorium and exposition building on the Fair Grounds, costing \$100,000 and in addition to this have advanced the princely sum of \$90,000 for premiums, purses and attractions that the Fair of 1905 may go down into history as the largest and grandest event of its kind ever given in the Southwest.

Every stockholder of this institution has signed an agreement to donate his stock for the good of the cause, and under a contract with the City of Dallas, it is agreed that no officer nor director, other than the Secretary, shall receive any compensation for his services and that every dollar earned by this Fair during the next twenty years shall be expended in the effort to make each succeeding Fair better than the last.

The gates of the Twentieth Annual Fair will open at 10 a. m., Sept. 30, 1905, the Fair continuing sixteen days.

During this period the public is assured of sixteen days solid pleasure and recreation, as well as the opportunity of seeing the largest and best display of live stock ever collected together in the South.

The lovers of speed horses are assured thirteen days racing with high-grade horses, competing for purses aggregating \$30,000, and last, but not least, the homeseeker will have an opportunity to examine a complete display of the varied resources and industries of Texas, as well as those of her sister states.

For further information and details address the State Fair of Texas, Dallas, Texas.

Yours respectfully,

STATE FAIR OF TEXAS

C. A. KEATING, President
SYDNEY SMITH, Secretary.

CROP CONDITION.

Report as Given Out by the National Ginners' Association.

Dallas, Aug. 3.—The following is the report of the National Ginners' association of the crop condition and the reduction of acreage as gathered from replies to more than 7000 letters of inquiry sent out by the association and received at the office of Secretary N. T. Blackwell from July 25 to Aug. 1:

Alabama—Condition, 70; reduction,

15.

Arkansas—Condition, 50; reduction,

25.

Florida—Condition, 85; reduction, 10.

Georgia—Condition, 80; reduction, 14.

Indian Territory—Condition, 75; reduction, 20.

Louisiana—Condition, 60; reduction,

22.

Mississippi—Condition, 65; reduction, 20.

Missouri—Condition, 90; reduction,

15.

North Carolina—Condition, 80; reduction, 15.

Oklahoma—Condition, 90; reduction,

5.

South Carolina—Condition, 75; reduction, 15.

Texas—Condition, 65; reduction, 18.

Tennessee—Condition, 60; reduction,

80.

Virginia—Condition, 80; reduction,

15.

Average condition, 75; average reduction, 17.6; estimated abandonment, 5 per cent; acreage, 26,021,000.

The lowest estimate was from Tennessee and the highest report was from Oklahoma City, which was 100 and reduction none.

Secretary Blackwell said: "There is only about 25,000,000 acres in cultivation that will reach the picking stage of maturity. This association is organized purely for gathering statistics to protect the ginner and planter and is working in harmony with the Southern Cotton association. It does not conflict with the census bureau, but encourages prompt and accurate reports to that department."

WITTE ARRIVES.

Russians Do Not Attach Such Importance to War as Outsiders.

New York, Aug. 3.—The Kaiser Wilhelm der Grosse with M. Sergius Witte, the senior Russian peace envoy on board, arrived in quarantine Wednesday afternoon. M. Witte is in good health. The ship had a smooth passage, the sea being smooth except on Saturday and Monday, when it was a little rough.

On shipboard M. Witte was generally reticent when the subject of his mission was mentioned. However, to an Associated Press correspondent, who accompanied him from Cherbourg, M. Witte said:

"Almost everywhere in Europe, as well as in America, not only Russia, her forces, her resources and her power of resistance are known, but the people are even mistaken about the true results of the war. The Russians have had reverses, but this does not signify that they have lost the power which was known to the Muscovite empire before the war; it does not mean that Russia has become a negligible quantity nor that Japanese have acquired by the result of the recent victories such a supremacy as to make the Russian empire consider them a truly redoubtable enemy."

M. Witte recognizes the good qualities of the Japanese military, and administrative organizations, and does not believe any other European nation would have been able to resist Japan as Russia has done.

"It must be taken into consideration," said M. Witte, "that the Japanese had been preparing themselves for war about ten years, while Russia was entirely unprepared, wishing and trusting in peace. They fought in their own neighborhood under all favorable conditions, while the Russians had to be sent 9000 versts from their headquarters by railroad entirely insufficient to their needs, and to fight a colonial war with all co-efficients against them. There is not in history another example of a similar disproportion between enemies."

"The great majority of the Russian people," said M. Witte, "don't attach to the conflict in the far east the importance which is given to it in Europe and America. It is considered as a very distant colonial war, but the whole Russian people would rise as a single man the day in which they should think that it is no more the question of a colonial war, which is not dangerous, but of a conflict threatening the security of the country."

M. Witte intimated, notwithstanding these views, that he doesn't mean to say that he will not make every possible effort toward the conclusion of peace, adding that he is favorable to peace as a Russian and as a man, having always worked to prevent war and understanding that at present nearly the entire world desired the end of the conflict. He emphatically denied having said that Japan's peace terms were intolerable. He also denied positively that he had predicted that the conference would break up in a week.

2,425,000 ACRES GOVERNMENT LAND

to be Thrown Open for Settlement Aug. 28, 1905—Splendid Opportunity for Homeseekers in Most Favored Section of Northwest.

Advices are received to the effect that the Uintah Indian Reservation in Utah will be thrown open by the Government for settlement on August 28th and that on account of same individual registrations for the land will commence August 1st at Grand Junction, Colorado, and at Vernal, Price and Provo, Utah, such registrations to close Aug. 12.

Drawings to determine the order in which selections of the land may be made, will be held at Provo, Utah, commencing on Thursday, August 17th, and the applications of those participating and drawing numbers from 1 to 50 inclusive, must be presented at Vernal, Utah, August 28th, when they will be considered in their numerical order during the first day; the applications of holders of numbers 51 to 100 inclusive to be presented on the second day and so on until all numbers have been disposed of.

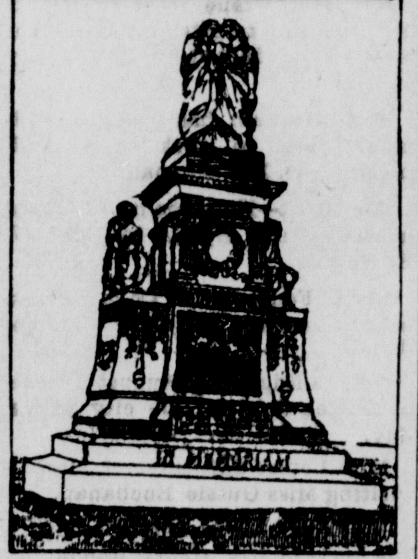

Between the time of registration and the drawing, applicants will be given certificates permitting them to examine the lands. All applications for entry must be made individually, and cannot be made by agents or representatives except in the cases of honorably discharged soldiers and sailors, who may submit proofs of their qualifications through agents of their own selection. No person, however, will be permitted to act as agent for more than one soldier or sailor. The reservation is reached to advantage via a new transportation line from Mack, Colorado, known as the Uintah Railway, also by stage line from Price, Utah, a station on the line of the Denver & Rio Grande R. R.

On this account and in order to admit of interested persons participating in the very unusual opportunity thus presented at nominal expense, the Fort Worth and Denver City Ry., (the Denver road) will sell round trip tickets from Texas points daily at rate of one fare plus \$2.00 for the round trip, with a return limit of 60 days from date of purchase, and will afford the privilege of stop-overs going and returning in order to facilitate the interests of those desiring to investigate and file their claims.

Details regarding the best plans of procedure in order to secure parts of this property will be supplied free of cost by Mr. A. A. Glisson, G. P. A. of "The Denver Road" at Fort Worth upon application. The lands referred to are in many respects extraordinarily good and, as this is probably the last opportunity of the kind which will be afforded for many years to come, it goes without saying that an immense interest will be found in the opening by parties from all sections of the country.

Tribute to the Victims of Steamboat Disaster Viewed by Many.

New York, Aug. 3.—The monument to the victims of the terrible disaster caused by the burning of the steamer H. W. Slocum, erected in Brooklyn, is nearly always surrounded by a number of spectators. It is a splendid piece of work and a view of it recalls the awful destruction of life that occurred in that holocaust.
